Weekly Split

- Monday – Rest
- Tuesday – Chest Priority
- Wednesday – Back & Biceps
- Thursday – Legs
- Friday – Recovery
- Saturday – Upper
- Sunday – Posterior Chain

Tuesday – Chest Priority

Today's Focus

- Primary goal: Build upper chest strength and size while you're freshest.
- Start with heavy compound presses, then move to machines and isolation work.
- Control every eccentric (2–3 seconds) and prioritize quality over weight.
- Leave the gym with your chest fatigued, not your shoulders.

Exercises

1. Incline Dumbbell Press

Targets:

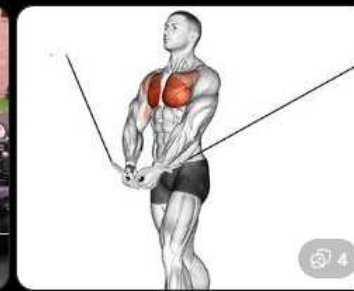

2. Flat Dumbbell Bench Press

3. Machine Chest Press

4. High-to-Low Cable Fly

5. Dumbbell Lateral Raise

6. Rope Triceps Pushdown

7. Overhead Rope Extension

8. Hanging Knee Raise

9. Pallof Press

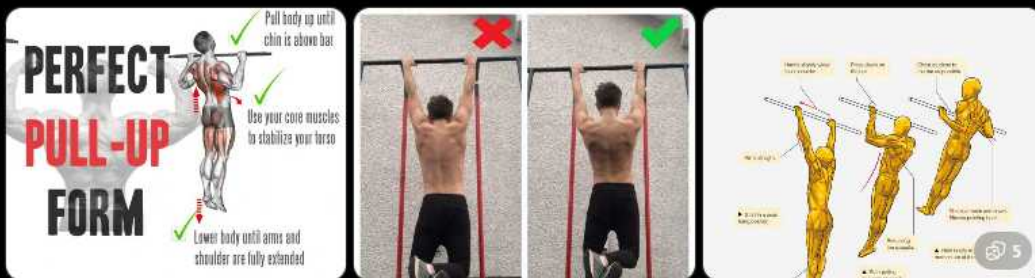

Wednesday – Back & Biceps

Today's Focus

- Focus on width first, then thickness, then arm work.
- Drive elbows instead of pulling with your hands.
- Use a full stretch on every pulling movement.
- Avoid swinging on curls; let the back do the heavy work.
